

Curriculum Proficiency Analysis Tutorial

DataHub's *Curriculum Proficiency Analysis* generates a table of student proficiencies by sub strand. The report reveals the percentage of questions answered correctly within the sub strand.

- 1.) Log in to DataHub [HERE](#).
- 2.) In the header under "DataHub Reports", select "Curriculum Proficiency Analysis".

- 3.) Fill in the required fields (*) and click the 'View' button.

A screenshot of the 'Curriculum Proficiency Analysis' form. It contains several input fields: 'School*' (text box), 'Year Level' (dropdown), 'Test Category*' (dropdown with 'Please select ...'), 'Room' (dropdown with 'Please select ...'), and 'Period*' (calendar picker showing '7 Feb 2017'). To the right, there is a 'Student' field (text box) and a 'To' field (calendar picker showing '7 Feb 2018'). A red 'View' button is located below the 'Period*' field.

- 4.) To view the percentage of correct answers within each *sub strand*, click on the strand heading found at the top of the table.

■ Measurement and Geometry			■ Number and Algebra (61.51%)	■ Statistics and Probability (60%)
■ Location And Transformation (57.14%)	■ Shape (64.29%)	■ Using Units Of Measurement (61.31%)		
50%	66.67%	100%	50%	60%
66.67%	66.67%	50%	66.67%	70%
50%	83.33%	58.33%	61.11%	60%
